I had a recent storm blow off some shingles on my roof. I contacted these guys and was very pleased with how prompt their response was. They are fairly priced and do great workmanship for such an affordable price! I would recommend them without hesitation to anyone who needs roof repair or replacement.

We are very happy with the job that Greater Austin Roofers did for us. They replaced our entire roof in a timely manner and left it looking great! Cody, their representative, explained each step during our meeting so I knew what would happen next. His professionalism impressed me which made this project go smoothly - thank you again guys!

Working with Cody at Greater Austin Roofers has been a great experience. He is very professional and knowledgeable. His workmanship speaks for itself in terms of the quality of the products that he provides. His communication during this process was exceptional - always ensuring you know what's going on so there are no surprises or issues along the way.

We were referred to Greater Austin Roofers by our neighbors, who said that they are a great company. The first time we met Cody he put together an impressive sample display for us and helped us stay within budget. We would highly recommend them if you're looking into getting new roofing done.

We had a great experience with Greater Austin Roofers. They were professional and very responsive, which made it easy for us in the process of getting quotes from different companies! The pricing was fair. We needed installation of a new roof plus removal/installation of a chimney (timing couldn't have been better). We highly recommend these guys if you need your roof done!!

I can't say enough good things about these guys! The price they offered us was more than fair, and we were able to work with them on our timeline because of their responsiveness. They also worked hard at making sure that everything would go smoothly based off an HOA approval - this helped out a lot when there's such tight deadlines (especially during winter). In short: if you need roofing services done, then hire these fellas right away

Strong winds blew my old satellite dish off my roof and it caused some damage to the shingles. I called around for quotes, but Greater Austin Roofers by far had the best price for the quality of service they offered. So I hired them. Great customer service!

Our condo association voted to hire Greater Austin Roofers and we are happy with that decision. They replaced the shingles and flashing of our roof. We reached out to other contractors in the area, but only they came off as reliable. We also found them to be friendly.

This company is so good at what they do. There were a lot of rainstorms recently that caused some leaks on our roof but thanks to these guys at Greater Austin Roofers, we don't have to worry about it again.

The roofers showed up on time and did a great job. Cody recommended that I wasn't going to need an entire new roof, which saved us money!
